

Please do not allow LPFM stations to take priority over current FM translator services! I financially support and listen to K-Love Christian radio daily, and know the positive impact it has on me and my family. There is very little positive and encouraging material on the radio, especially suitable for family listening. Stations like these provide an alternative to listeners who do not wish to hear negative or offensive material. It is in the public interest that we have choices! I believe in it so much I support K-Love monthly just to help keep them on the air. Please do not allow them to be taken off the air! We need faith-based encouragement !
